PROFESSIONAL SUMMARY

Mid-level full stack and mobile developer with 3+ years of experience building and maintaining production applications across Flutter, React Native, iOS Swift, Android Kotlin/Java, and Laravel. Current team lead at Odecci Solutions Inc., where I own the entire company mobile portfolio, drive architecture decisions, and mentor junior developers. Proven track record of measurable impact: reduced app crash rate by 68% and cut release cycle time from 3 weeks to under 4 days. Heavy adopter of AI-assisted development (Claude, GitHub Copilot, Cursor) achieving 70% reduction in boilerplate and debugging time.

TECHNICAL SKILLS

Languages: Dart, JavaScript/TypeScript, PHP, Kotlin, Java, Swift, Objective-C, SQL

Mobile: Flutter, React Native, iOS (Swift/Objective-C), Android (Kotlin/Java)

Backend/Web: Laravel, Node.js, WordPress, RESTful APIs, Livewire, Alpine.js, Tailwind CSS

Databases: MySQL, Firebase Firestore, Isar

Cloud & APIs: Firebase (Auth, BaaS, Push), Google Maps API, Google Play Console, App Store Connect

Tools & DevOps: Git, GitHub, GitHub Actions, CI/CD, Expo, Fastlane, Jira, Figma

AI Dev Tools: GitHub Copilot (MCP & AI Agents), Claude, Cursor, Grok

Architecture: Clean Architecture, Riverpod, GoRouter, Microservices, Monolith, MVC, MVVM

WORK EXPERIENCE

Mid-Level Full Stack Developer & Team Lead Feb 2026 – Present

Odecci Solutions Inc. | Bulacan, Philippines

- Lead mobile developer for iReserb, an all-in-one service booking platform built in Flutter, integrating Firebase (BaaS), Google Maps API, and third-party SDKs.
- Architecting and driving technical roadmap decisions for the entire mobile portfolio; currently leading 2-person dev team through active sprint cycles.
- Implemented AI-driven development workflows using GitHub Copilot (MCP and AI Agents), reducing boilerplate generation time significantly.
- Mentoring junior developers on clean architecture patterns, code review standards, and Agile best practices.

Full Stack & Mobile Developer Jan 2024 – Jan 2026

Odecci Solutions Inc. | Bulacan, Philippines

- Sole maintainer and lead developer of the company's entire mobile app portfolio across iOS (Swift/Objective-C), Android (Kotlin/Java), and cross-platform (React Native).
- Reduced app crash rate by 68% through disciplined testing, automated crash reporting, and systematic tech debt management.
- Cut release cycle time from 3 weeks to under 4 days by implementing CI/CD pipelines and automated testing workflows.
- Spearheaded R&D for new architecture patterns; successfully migrated Gold One Lending web app from a microservices architecture to a clean monolith and designed the future system architecture roadmap.
- Accelerated feature delivery 2–3x using AI-assisted development tools (Claude, Grok, Cursor), cutting boilerplate and debugging time by 70%.

- Led cross-functional collaboration with stakeholders — setting expectations, managing delivery timelines, and presenting technical roadmaps to non-technical management.

Acting Tech Lead | Oct 2025 – Jan 2026

- Appointed Acting Tech Lead while continuing IC responsibilities; drove all Agile ceremonies (sprint planning, retros, standups) for a team of 4 engineers.
- Owned technical decisions and Architecture Decision Records (ADRs), establishing documentation standards for future engineering hires.
- Built and maintained CI/CD pipelines using GitHub Actions, Expo EAS, and Docker, reducing manual release overhead and enabling automated deployments.

Part-Time Full Stack Developer May 2024 – Present

Polytechnic University of the Philippines

- Completed full SDLC for an internal Procurement Project Tracker application built in Laravel.
- Ongoing continuous enhancement and integration of the system to support procurement management operations.

WordPress Developer Nov 2023 – May 2024

Odecci Solutions Inc. | Bulacan, Philippines

- Maintained and developed WordPress sites using Elementor, Divi Theme, and other industry-standard plugins.
- Delivered UI/UX improvements and content management workflows for client-facing sites.

Front End Developer

Aug 2023 – Jan 2024

Odecci Solutions Inc. | Bulacan, Philippines

- Developed UI/UX designs, prototypes, and front-end implementation for a Lending Management System for Gold One Lending Corp. using Figma and web technologies.

Front End Developer (Internship) May 2023 – Aug 2023

Odecci Solutions Inc. | Bulacan, Philippines

- Completed internship building front-end components, gaining hands-on experience with production codebases and industry development workflows.

EDUCATION

Diploma in Computer Engineering Technology

2020 – 2024

Polytechnic University of the Philippines

KEY ACHIEVEMENTS

- 68% reduction in production app crash rate through automated testing and tech debt management.
- Shortened release cycle from 3 weeks to under 4 days via CI/CD pipeline implementation.
- 2–3x acceleration in feature delivery through AI-assisted development tooling.
- Successfully migrated a production lending app from microservices to a clean monolith architecture with zero downtime.
- Promoted from intern to team lead within 3 years at same company — progressing through 5 distinct roles.

PROFESSIONAL & LEADERSHIP SKILLS

Leadership:	Team Lead, Mentoring & Career Coaching, Cross-Functional Collaboration
Management:	Project Management, Agile/Scrum, Technical Roadmap Ownership, Risk Mitigation
Communication:	Stakeholder Management, Client Expectation Setting, Technical Presentations
Design:	UI/UX Design, Wireframing & Prototyping (Figma), Graphic Design
